

Summary of AG-018 United Nations Relief and Rehabilitation Administration (UNRRA) (1943-1946)

Title

United Nations Relief and Rehabilitation Administration (UNRRA) (1943-1946)

Active Dates

1919-1977

Administrative History

UNRRA was established by agreement of 44 nations on 9 November 1943; operations came to an end in the latter part of 1946, with the last staff appointment terminating 31 March 1949. The purpose of UNRRA was to "plan, co-ordinate, administer or arrange for the administration of measures for the relief of victims of war in any area under the control of any of the United Nations through the provision of food, fuel, clothing, shelter and other basic necessities, medical and other essential services" (Agreement, Articles 1 and 2).

Among predecessor organizations was the Office of Foreign Relief and Rehabilitation Operations of the United States Department of State (established 21 November 1942) and the Inter-Allied Committee on Post-War Requirements (the Leith-Ross Committee) established in London in September 1941.

The Agreement provided for (1) a Council on which each member government was represented (which met in six sessions from November 1943 to December 1946); (2) a central committee consisting of China, the USSR, the UK, and the US (initially), to make policy decisions between Council Sessions; (3) a Director-General to serve as chief executive and administrative officer who was responsible for approximately 25,000 staff worldwide.

UNRRA headquarters was in Washington, D.C., and the European Regional Office was set up in London. Individuals who served as Director-General were: Herbert H. Lehmann (1 January 1944 to 31 March 1946); Fiorello H. LaGuardia (1 April to 31 December 1946); and Major-General Lowell P. Rooks (1 January 1947 to 30 September 1948).

The Administration of UNRRA at the peak of operations in mid-1946 included five types of offices and missions with a staff totalling nearly 25,000: The Headquarters Office in Washington, The European Regional Office (London), the Twenty-nine servicing offices and missions (2 area offices in Cairo and Sydney; 10 liaison offices and missions in Belgium, Denmark, France, Italy, Luxembourg, the Netherlands, Norway, Sweden, Switzerland, Trieste; 12 procurement offices in Argentina, Brazil, Chile –later Peru, Cuba, India, Mexico, South Africa, Southern Rhodesia, Turkey, Uruguay, Venezuela; 6 offices for procurement of surplus military supplies in Caserta –later Rome, Honolulu, Manila, New Delhi, Paris, Shanghai), the sixteen missions to receiving countries (Albania, Austria, Byelorussia, China, Czechoslovakia, the Dodecanese Islands, Ethiopia, Finland, Greece, Hungary, Italy, Korea, the Philippines, Poland, Ukraine, Yugoslavia), and the Displaced Persons Operations in Germany.

Scope and Content

Fonds consists of UNRRA Headquarters records and the records of UNRRA administration in Europe and Asia, and contains the following sub-fonds:

AG-018-001: China Office - Subject Files

AG-018-002: Controller and Public Information

AG-018-003: Bureau of Supply
AG-018-004: Bureau of Areas
AG-018-005: Bureau of Administration
AG-018-006: Balkan Mission and Middle East Office
AG-018-007: International Refugee Organization (IRO)
AG-018-008: European Regional Office (ERO) - Registry Files
AG-018-009: Italy Mission
AG-018-010: Austria Mission
AG-018-011: European Regional Office (ERO) - Subject Files
AG-018-012: Washington DC Headquarters
AG-018-013: Bureau of Services
AG-018-014: Belgium Mission
AG-018-015: Byelorussia Mission
AG-018-016: Czechoslovakia Mission
AG-018-017: Denmark Mission
AG-018-018: Dodecanese Islands Mission
AG-018-019: Ethiopia Mission
AG-018-020: Finland Mission
AG-018-021: Offices in France
AG-018-022: Greece Mission
AG-018-023: Hungary Mission
AG-018-024: Luxembourg Mission
AG-018-025: Norway Mission
AG-018-026: Poland Mission
AG-018-027: Sweden Mission
AG-018-028: Switzerland Mission
AG-018-029: Trieste Port Office
AG-018-030: Turkey Mission
AG-018-031: Ukraine Mission
AG-018-032: Yugoslavia Mission
AG-018-033: India Mission - Procurement and Recruiting Office
AG-018-034: Korea Mission
AG-018-035: Philippine Mission
AG-018-036: Latin America - Procurement Offices
AG-018-037: South West Pacific Area Office (SWPAO)
AG-018-038: Hawaii Procurement Office
AG-018-039: Germany Mission
AG-018-040: Office of the Historian
AG-018-041: UNRRA Photographs

Collection Inventory

AG-018-001 China Office - Subject Files 1943-1949

Scope and Content

Sub-fonds consist of the following series:

Headquarters Secretariat (S-0528, S-1121 to S-1125)
Administration (S-1126 to S-1134)
Supply (S-1135 to S-1142)
Regional Offices (S-1143 to S-1166)

Administrative History

In September 1944, the Chinese Government transmitted to the Director General of UNRRA a formal request for assistance. The estimated supply requirements, as presented, amounted to about US \$945 million, in addition to which more than 2, 200 foreign experts were requested for assistance in implementing the relief and rehabilitation program.

In November 1944, a first small contingent of UNRRA personnel left Washington Headquarters to open an office in China's wartime capital, Chungking, and just one year later the first shipload of UNRRA supplies reached Shanghai. By November 1946, deliveries to Chinese ports had passed the halfway mark and by November 1947 the vast UNRRA supply program in China was virtually completed.

To assist the Council and Central Committee in considering questions of policy pertaining to operations in the Far East, principally China, a Committee of the Council for the Far East (CCFE) was created with representation from member governments most concerned. An Office of Far Eastern Affairs (OFEA) was also established within the UNRRA Headquarters to coordinate activities in the Far East.

The China Office moved from Chungking to Shanghai where it gradually expanded until it became a large headquarters controlling a capital liaison unit in Nanking, fifteen regional offices and a number of special offices. The organization evolved through many vicissitudes, including major changes in policy by the Administration and by the Government, a succession of operational crises, and a heavy turnover in key personnel.

In January 1945 the Chinese Government created a special agency, the Chinese National Relief and Rehabilitation Administration (CNRRA), to conduct negotiations with UNRRA and to administer and coordinate postwar relief and rehabilitation operations in China. The China Office of UNRRA received supplies for transmission to the CNRRA authorities after consultation respecting their allocation, observed their distribution and use, furnished technical counsel and advice on the development of programs, and provided at the request of the Government a large number of technical and administrative personnel to work within CNRRA and other agencies of the Government. More than half of the UNRRA personnel in China were assigned "on loan" to CNRRA and cooperating agencies. Relations between the Chinese Government and UNRRA are defined in a "Basic Agreement" similar to agreements concluded between UNRRA and other receiving nations.

UNRRA operations in China were officially terminated as of 31 December 1947. A closure staff which remained to handle final responsibilities pertaining to accounts, auditing, assembling and shipping of records, finished its work prior to 30 April 1948. This had been the largest program of internationally sponsored assistance ever developed on behalf of a single nation.

S-0528 Headquarters Secretariat - Office of the Director 1943-1949

Scope and Content

Series contains PAG-4/3.1(UNRRA Asia and the Far East and Latin American), subseries (3.1.1) China; (.3.1.2) Korea; (3.1.3) Philippines; (3.1.4) Latin America; (3.1.5) Southwest Pacific Area; and (3.1.6) Hawaii Procurement Office.

Due to the EAD project, some of the boxes have been assigned to new series. (RD 18/08/19)

Scope and Content

Sub-fonds consists of the series:

Executive Office (S-0521, S-1170 to S-1172)

Assistant Controller for Budgetary Accounting and Statistics (S-1173 to S-1175)

Internal Audit Executive Office (S-1176)

Fiscal Accounting (S-1177 to S-1183)

Office of Public Information (S-0554)

Administrative History

The accounting and financial organization of UNRRA experienced the most involved administrative development and went through the most numerous and difficult changes of policy and procedure in the agency. Historian Fred M Bellows identifies in "Historical Monograph on the Administration of UNRRA's Accounts and Finances" (30 April 1948) eleven major changes of organizational structure in less than four years. Serious differences on major policy questions occurred in the top levels of the staff, and the Committee on Financial Control and the External Auditors were often strong in their criticism of the procedures and the reports produced.

For present purposes it is not feasible to attempt a description or an appraisal of the UNRRA accounting system, nor is it possible to present its administrative history in detail. The brief outline below indicates the organizational structure for the period after 1 August 1947, with some references to earlier arrangements.

I Controller

This post was established as of 10 January 1946, and by action of 16 April 1946 it was set up in the Director General's Office as the principal financial control and accounting agency. That responsibility had previously been held by the Bureau of Finance and Administration which had operated in this field through the Treasurer until July 1945 and thereafter through a Director of Accounts and Audit. In October 1948 the Controller became Administrator for Liquidation.

II Assistant Controller for Budgetary Accounting and Statistics

Established 1 April 1947, this office assumed the functions of the former Division of Budgetary Accounting (earlier the Budget Division and the Budget Control Branch) and the Division of Resources and Operating Reports (formerly the Statistics and Reports Branch), as well as some functions of the former Division of Finance. The subordinate units of the Assistant Controller's staff underwent several changes, but the files of only one, the Financial Services Branch, remain as an entity.

A. Executive Office

B. Financial Services Branch

This unit appears to have been organized in February 1945 as the Financial Management Section (after 1 July the Financial Resources Section) of the Finance Division.

III Assistant Controller for Internal Audit

An Internal Audit Division had been established under the Treasurer by July 1944, later becoming a Branch in the Division of Accounts and Audit and, in April 1946, the Internal Audit staff in the Bureau of Accounts and Finance. On 1 April 1947, it became the Headquarters Internal Audit Staff under the Deputy Controller. When the latter resigned as of 31 July 1947, the unit became a primary division of the Controller Office under an Assistant Controller.

IV Assistant Controller for Fiscal Accounting

This office, also established on 1 April 1947, assumed responsibility for the functions of the previous Divisions of Accounts, Commodity Records, and Finance, except for those Finance Division functions transferred to the Assistant Controller for Budgetary Accounting and Statistics.

A. Executive Office

B. Disbursing Division

Originally a part of the Treasury and later of the Finance Division (after 1 October 1945 the Disbursing and Banking Section of that Division), this office became a Division with the reorganization of 1 April 1947. It was made up of three units:

a. Payroll and Check writing Branch (formerly the Employee Accounts Unit and the Payroll Section of the Accounts Division)

b. Banking Branch

c. Headquarters Cash Control Branch

C. Accounting Division

Originating as part of an Accounts and Audit Division in the Bureau of Finance and Administration, this office became the Accounts Division of the Office of the Treasurer on 1 March 1944. On 1 September 1945, it was again joined with the Internal Audit Division to form an Accounts and Audit Division reporting to the Deputy Director General for Finance and Administration. On 16 April 1946 it again became the Accounts Division, this time in the Bureau of Accounts and Finance. On 1 April 1947 it was established as the Accounting Division under the Assistant Controller for Fiscal Accounting. It consisted of four major units

a. Coding and Expenditure Accounting Branch

b. Financial Statements and General Ledger Branch

c. Commodity Accounting Branch (first established as a unit in September 1945)

d. Commodity Records Branch (originally, until early 1946, the Records and Reports Division of the Bureau of Supply)

(The latter two branches operated together during 1946 as a Division of Commodity Records)

C. Accounting Division

D. Audits and Claims Division

Established on 1 April 1947 to group the functions of the former Voucher Audit and Freight Audit Branches of the Accounts Division and the Insurance and Claims Branch of the Finance Division.

a. Executive Office. The Office of the Director appears to have carried on the functions of the former Freight Audit Branch, which had existed since 15 February 1946 in the Accounts Division, doing work previously carried on in the Ocean Shipping Division, Bureau of Supply.

b. Voucher Audit Branch. Voucher audit work began in the Accounts Division in 1944, and after 1 July 1944 a Voucher Audit Section or Branch (sometimes combined with the payroll function) existed in that Division until formation of the

Audits and Claims Division.

c. Certifying Officer. (No identifiable files remain.)

d. Insurance and Claims Branch. (Transferred to the General Counsel's Office on 1 May 1947.)

S-0521 Executive Office - Subject files 1943-1949

Scope and Content

Series contains PAG-4/1.4 (UNRRA HQ, Washington D.C. - Controller and Office of Public Information)

Due to the EAD project, some of the boxes have been assigned to new series. (RD 18/08/19)

S-0554 Office of Public Information 1943-1949

Scope and Content

Public information work in UNRRA began with a small staff taken over from OFRRO which worked at the Atlantic City Council session of November 1943.

The headquarters staff in early 1946 numbered more than sixty, who were grouped in a Director's Office; Branches for Writing and Editing, Regional Operations, and Area Service; and Sections dealing with Radio,

Organized Groups, Visual Media, Trade Press, and Magazines. The functions of the Office are sufficiently evident from these titles.

Because of the nature of the work, the records kept by the office consisted mainly of routine administrative files and preliminary drafts of releases and other publicity materials. Much of this was destroyed by UNRRA or later by the Archives Section.

AG-018-003 Bureau of Supply 1942-1949

Scope and Content

Sub-fonds consists of records from Country or Subject files for the following series:

Executive Office (S-1185 and S-1186)
 Education program Division (S-1187)
 Country Programs Division (S-1188 to S-1195)
 Procurement Coordination Division (S-1196 to S-1205)
 Statistical Records and Reports Division (S-1206 and S-1207)
 Agricultural Rehabilitation Division (S-1207 to S-1214)
 Industrial Rehabilitation Division (S-1215 to S-1226)
 Food Division (S-1227 to S-1233)
 Clothing, Textiles and Footwear Division (S-1234)
 Ocean Shipping Division (S-1235 to S-1237)
 Direct Procurement Division (S-1239 and S-1240)

Administrative History

The organizational structure of the Bureau of Supply did not develop as a result of circumstances as they arose but was deliberately planned, and the necessary changes made from time to time did not alter its original pattern.

This planning began in December 1943, when Mr. Roy F. Hendrickson, then Administrator of the Food Distribution Administration of the United States Department of Agriculture was appointed Deputy Director General for Supply of UNRRA as of 16 January 1944. He organized a series of meetings to plan the structure of the Bureau of Supply.

When, on 16 January 1944, the Deputy Director General of the Bureau of Supply entered on duty, the organizational structure of the Administration as a whole was yet to be formally announced as well as the functions of each of its major sections. Later, a numbered series of administrative memoranda, serving as the formal method of communicating policy decisions throughout the organization, was established starting with the undated Bureau of Supply Order No. 1, "Establishment of Series". Bureau of Supply Order No. 2: "Interim Organization of the Bureau of Supply", also undated, set up the temporary structure to consist of (a) the Division of Agricultural Rehabilitation, (b) the Division of Requirements and Allocations, and (c) the Division of Procurement. Bureau of Supply Order No. 8, "Internal Organization of the Bureau of Supply" (15 April 1944) was the first approved issuance to show the actual functions, authorities and responsibilities within the Bureau of Supply.

Listed below are the most important divisions as they existed at the time (March 1949) UNRRA transferred its functions to the United Nations:

- a. Executive Office
- b. Agricultural Rehabilitation Division (see UNRRA S/L No. 28)
- c. Industrial Rehabilitation Division (see UNRRA S/L No. 29)
- d. Food Division (see UNRRA S/L No. 46)
- e. Medical and Sanitation Division (Transferred to WHO - see Registry File CGS 71/8/08)
- f. Clothing, Textiles and Footwear Division (see-UNRRA S/L No. 33)
- g. Country Programs Division (see-UNRRA S/L No.35)
- h. Ocean Shipping Division (see-UNRRA S/L No.31)
- i. Procurement Coordination Division (see-UNRRA S/L No.32)
- j. Direct Procurement Division (see-UNRRA S/L No.30)

S-1189 Country Programs Division - Executive Office - Subject Files 1943-1948

Scope and Content

The first organization plan of the Bureau of Supply (Bureau of Supply Order No. 2, c. January 1944) contained provision for a Requirements and Allocations Division. After 15 April 1944, it operated as two branches, a Requirements Co-ordination Branch, and an Allocations Co-ordination Branch, (Bureau of Supply Order No. 8). The two were again joined (Bureau of Supply Order No. 8, Supp. 7) on 12 October 1944. On 13 July 1945 (Bureau of Supply Bulletin No. 34) the Branch was abolished, and its functions were taken over by the new Country Programs Division. The new Division took over some of the functions and staff of the "area desks" of the former Bureau of Areas.

The functions of the office were, briefly, to act in a staff and liaison capacity in connection with the computation of supply requirements and the preparation of requests for allocations, and in the development of coordinated requirements programs. It was divided into four major units: an Executive Office; a Programming Branch, responsible for drawing up and coordinating a broad program of supply operations by balancing the needs and requests of receiving countries against available resources of funds and supplies; an Operations Branch, principally occupied with preparing and maintaining current records and reports of the progress of the program; and a Country Desk Branch, consisting mainly of liaison officers responsible for coordinating the work of the various Supply Bureau divisions with respect to individual countries and for assisting the Mission heads and the Washington representatives of those countries.

When liquidation began, the Country Programs Division was abolished on 1 August 1947, and its remaining functions were assumed by the new Residual Operations and Records Division (General Bulletin No. 277). This was in turn succeeded on 1 April 1948 by the Division of Residual Supply Activities (AO 103, Supp. 21).

S-1191 Country Programs Division - Programming Branch - General Files 1943-1948

Scope and Content

The first organization plan of the Bureau of Supply (Bureau of Supply Order No. 2, c. January 1944) contained provision for a Requirements and Allocations Division. After 15 April 1944, it operated as two branches, a

Requirements Co-ordination Branch, and an Allocations Co-ordination Branch, (Bureau of Supply Order No. 8). The two were again joined (Bureau of Supply Order No. 8, Supp. 7) on 12 October 1944. On 13 July 1945 (Bureau of Supply Bulletin No. 34) the Branch was abolished, and its functions were taken over by the new Country Programs Division. The new Division took over some of the functions and staff of the "area desks" of the former Bureau of Areas.

The functions of the office were, briefly, to act in a staff and liaison capacity in connection with the computation of supply requirements and the preparation of requests for allocations, and in the development of coordinated requirements programs. It was divided into four major units: an Executive Office; a Programming Branch, responsible for drawing up and coordinating a broad program of supply operations by balancing the needs and requests of receiving countries against available resources of funds and supplies; an Operations Branch, principally occupied with preparing and maintaining current records and reports of the progress of the program; and a Country Desk Branch, consisting mainly of liaison officers responsible for coordinating the work of the various Supply Bureau divisions with respect to individual countries and for assisting the Mission heads and the Washington representatives of those countries.

When liquidation began, the Country Programs Division was abolished on 1 August 1947, and its remaining functions were assumed by the new Residual Operations and Records Division (General Bulletin No. 277). This was in turn succeeded on 1 April 1948 by the Division of Residual Supply Activities (AO 103, Supp. 21).

S-1196 Procurement Coordination Division - Executive Office - Subject Files 1943-1949

Scope and Content

A Procurement Division was one of three major parts of the early Bureau of Supply (Bureau of Supply Order No. 2, c. Jan. 1944). By April 1944, it had become the Procurement Coordination Branch (later Division) (B.S. Order No. 8). In August 1947 the Division was abolished, its remaining functions being carried on by a new

Division of Residual Operations and Records, which was in turn succeeded on 1 April 1948, by the Division of Residual Supply Activities (General Bulletin 277; Administrative Order 103, Supp. 21).

The chief responsibilities of the Procurement Coordination Division were to act in a staff capacity in developing a procurement program and "to assume leadership for procurement work of the Bureau"; to maintain liaison with suppliers, government agencies, UNRRA offices, and supply missions on procurement matters; to assemble data on member countries ability to contribute to UNRRA and assist in negotiations for contributions; and to develop procedures for acquiring war surpluses.

The Division consisted of a Requisition and Budget Control Branch, a Surplus Property Branch, a Latin American Branch, a British Dominions and India Branch, and an Expediting (United States and Canada) Branch. A Direct Purchase Branch, which was a part of the Division until 16 May 1946, was abolished at that time and succeeded by a new Division of Emergency Procurement. The Requisition and Budget Control Branch was changed in January 1947 to the Funding, Budget, and Records Management Branch, under Allan T. Bonnell, who in August became head of the Residual Operations and Records Division.

S-1198 Procurement Coordination Division - Funding, Budget and Records Management Branch - Subject and Country Files 1943-1949

Scope and Content

A Procurement Division was one of three major parts of the early Bureau of Supply (Bureau of Supply Order No. 2, c. Jan. 1944). By April 1944, it had become the Procurement Coordination Branch (later Division) (B.S. Order No. 8). In August 1947 the Division was abolished, its remaining functions being carried on by a new Division of Residual Operations and Records, which was in turn succeeded on 1 April 1948, by the Division of Residual Supply Activities (General Bulletin 277; Administrative Order 103, Supp. 21).

The chief responsibilities of the Procurement Coordination Division were to act in a staff capacity in developing a procurement program and "to assume leadership for procurement work of the Bureau"; to maintain liaison with suppliers, government agencies, UNRRA offices, and supply missions on procurement matters; to assemble data on member countries ability to contribute to UNRRA and assist in negotiations for contributions; and to develop procedures for acquiring war surpluses.

The Division consisted of a Requisition and Budget Control Branch, a Surplus Property Branch, a Latin American Branch, a British Dominions and India Branch, and an Expediting (United States and Canada) Branch. A Direct Purchase Branch, which was a part of the Division until 16 May 1946, was abolished at that time and succeeded by a new Division of Emergency Procurement. The Requisition and Budget Control Branch was changed in January 1947 to the Funding, Budget, and Records Management Branch, under Allan T. Bonnell, who in August became head of the Residual Operations and Records Division.

S-1200 Procurement Coordination Division - Surplus Property Branch - Country Files 1943-1949

Scope and Content

A Procurement Division was one of three major parts of the early Bureau of Supply (Bureau of Supply Order No. 2, c. Jan. 1944). By April 1944, it had become the Procurement Coordination Branch (later Division) (B.S. Order No. 8). In August 1947 the Division was abolished, its remaining functions being carried on by a new Division of Residual Operations and Records, which was in turn succeeded on 1 April 1948, by the Division of Residual Supply Activities (General Bulletin 277; Administrative Order 103, Supp. 21).

The chief responsibilities of the Procurement Coordination Division were to act in a staff capacity in developing a procurement program and "to assume leadership for procurement work of the Bureau"; to maintain liaison with suppliers, government agencies, UNRRA offices, and supply missions on procurement matters; to assemble data on member countries ability to contribute to UNRRA and assist in negotiations for contributions;

and to develop procedures for acquiring war surpluses.

The Division consisted of a Requisition and Budget Control Branch, a Surplus Property Branch, a Latin American Branch, a British Dominions and India Branch, and an Expediting (United States and Canada) Branch. A Direct Purchase Branch, which was a part of the Division until 16 May 1946, was abolished at that time and succeeded by a new Division of Emergency Procurement. The Requisition and Budget Control Branch was changed in January 1947 to the Funding, Budget, and Records Management Branch, under Allan T. Bonnell, who in August became head of the Residual Operations and Records Division.

S-1201 Procurement Coordination Division - Latin American Branch - Subject File 1943-1949

Scope and Content

A Procurement Division was one of three major parts of the early Bureau of Supply (Bureau of Supply Order No. 2, c. Jan. 1944). By April 1944, it had become the Procurement Coordination Branch (later Division) (B.S. Order No. 8). In August 1947 the Division was abolished, its remaining functions being carried on by a new Division of Residual Operations and Records, which was in turn succeeded on 1 April 1948, by the Division of Residual Supply Activities (General Bulletin 277; Administrative Order 103, Supp. 21).

The chief responsibilities of the Procurement Coordination Division were to act in a staff capacity in developing a procurement program and "to assume leadership for procurement work of the Bureau"; to maintain liaison with suppliers, government agencies, UNRRA offices, and supply missions on procurement matters; to assemble data on member countries ability to contribute to UNRRA and assist in negotiations for contributions; and to develop procedures for acquiring war surpluses.

The Division consisted of a Requisition and Budget Control Branch, a Surplus Property Branch, a Latin American Branch, a British Dominions and India Branch, and an Expediting (United States and Canada) Branch. A Direct Purchase Branch, which was a part of the Division until 16 May 1946, was abolished at that time and succeeded by a new Division of Emergency Procurement. The Requisition and Budget Control Branch was changed in January 1947 to the Funding, Budget, and Records Management Branch, under Allan T. Bonnell, who in August became head of the Residual Operations and Records Division.

S-1203 Procurement Coordination Division - British Dominions and India Branch - Subject files 1945-1945

Scope and Content

A Procurement Division was one of three major parts of the early Bureau of Supply (Bureau of Supply Order No. 2, c. Jan. 1944). By April 1944, it had become the Procurement Coordination Branch (later Division) (B.S.

Order No. 8). In August 1947 the Division was abolished, its remaining functions being carried on by a new Division of Residual Operations and Records, which was in turn succeeded on 1 April 1948, by the Division of Residual Supply Activities (General Bulletin 277; Administrative Order 103, Supp. 21).

The chief responsibilities of the Procurement Coordination Division were to act in a staff capacity in developing a procurement program and "to assume leadership for procurement work of the Bureau"; to maintain liaison with suppliers, government agencies, UNRRA offices, and supply missions on procurement matters; to assemble data on member countries ability to contribute to UNRRA and assist in negotiations for contributions; and to develop procedures for acquiring war surpluses.

The Division consisted of a Requisition and Budget Control Branch, a Surplus Property Branch, a Latin American Branch, a British Dominions and India Branch, and an Expediting (United States and Canada) Branch. A Direct Purchase Branch, which was a part of the Division until 16 May 1946, was abolished at that time and succeeded by a new Division of Emergency Procurement. The Requisition and Budget Control Branch was changed in January 1947 to the Funding, Budget, and Records Management Branch, under Allan T. Bonnell, who in August became head of the Residual Operations and Records Division.

S-1204 Procurement Coordination Division - British Dominions and India Branch - Country files 1943-1949

Scope and Content

A Procurement Division was one of three major parts of the early Bureau of Supply (Bureau of Supply Order No. 2, c. Jan. 1944). By April 1944, it had become the Procurement Coordination Branch (later Division) (B.S. Order No. 8). In August 1947 the Division was abolished, its remaining functions being carried on by a new Division of Residual Operations and Records, which was in turn succeeded on 1 April 1948, by the Division of Residual Supply Activities (General Bulletin 277; Administrative Order 103, Supp. 21).

The chief responsibilities of the Procurement Coordination Division were to act in a staff capacity in developing a procurement program and "to assume leadership for procurement work of the Bureau"; to maintain liaison with suppliers, government agencies, UNRRA offices, and supply missions on procurement matters; to assemble data on member countries ability to contribute to UNRRA and assist in negotiations for contributions; and to develop procedures for acquiring war surpluses.

The Division consisted of a Requisition and Budget Control Branch, a Surplus Property Branch, a Latin American Branch, a British Dominions and India Branch, and an Expediting (United States and Canada) Branch. A Direct Purchase Branch, which was a part of the Division until 16 May 1946, was abolished at that time and succeeded by a new Division of Emergency Procurement. The Requisition and Budget Control Branch was changed in January 1947 to the Funding, Budget, and Records Management Branch, under Allan T. Bonnell, who in August became head of the Residual Operations and Records Division.

S-1206 Statistical Records and Reports Division - Executive Office - Subject files 1943-1949

Scope and Content

The Statistical Records and Reports Division was established 15 April 1944 by Bureau of Supply Order No. 8. The functions, authorities and responsibilities of this division were as follows:

To assume leadership in the Bureau of Supply for the establishment and maintenance of appropriate records and reports and to review all proposed records and reports for conformity with established standards and policies of the Bureau prior to submission for approval to the Deputy Director General.

To formulate for approval standards to be maintained and records to be established and to establish and maintain records according to such approved standards with respect to estimates of requirements, allocations requested, allocations approved, goods procured under such allocations or under allocations made directly to paying governments, goods in storage, goods forwarded and goods shipped to receiving countries.

To establish and maintain effective liaison through appropriate channels with the Bureau of Supply at London and regional offices generally and with supply missions in supplying countries in order to insure the establishment of records serving purposes in those offices and missions so that the Bureau of Supply at Headquarters may be kept fully informed of progress under UNRRA's supply program.

To formulate and/or to consolidate for approval periodic reports to be submitted by the Bureau of Supply in London and other regional offices and supply missions to the Deputy Director General and to maintain at all times a consolidated record that will reflect overall progress being made under UNRRA's supply program.

To assume such other related responsibilities as may be assigned from time to time.

On 10 May 1946, Headquarters Administrative Order No. 92, Supplement No. 3 announced the abolition of the Division of Statistical Records and Reports, effective 1 May 1946 and the establishment of Division of Commodity Records in the Bureau of Accounts and Finance

S-1207 Statistical Records and Reports Division - Executive Office - Country Files 1943-1949

Scope and Content

The Statistical Records and Reports Division was established 15 April 1944 by Bureau of Supply Order No. 8. The functions, authorities and responsibilities of this division were as follows:

To assume leadership in the Bureau of Supply for the establishment and maintenance of appropriate records and reports and to review all proposed records and reports for conformity with established standards and policies of the Bureau prior to submission for approval to the Deputy Director General.

To formulate for approval standards to be maintained and records to be established and to establish and maintain records according to such approved standards with respect to estimates of requirements, allocations requested, allocations approved, goods procured under such allocations or under allocations made directly to paying governments, goods in storage, goods forwarded and goods shipped to receiving countries.

To establish and maintain effective liaison through appropriate channels with the Bureau of Supply at London and regional offices generally and with supply missions in supplying countries in order to insure the establishment of records serving purposes in those offices and missions so that the Bureau of Supply at Headquarters may be kept fully informed of progress under UNRRA's supply program.

To formulate and/or to consolidate for approval periodic reports to be submitted by the Bureau of Supply in London and other regional offices and supply missions to the Deputy Director General and to maintain at all times a consolidated record that will reflect overall progress being made under UNRRA's supply program.

To assume such other related responsibilities as may be assigned from time to time.

On 10 May 1946, Headquarters Administrative Order No. 92, Supplement No. 3 announced the abolition of the Division of Statistical Records and Reports, effective 1 May 1946 and the establishment of Division of

Commodity Records in the Bureau of Accounts and Finance

S-1208 Agricultural Rehabilitation Division - Office of the Director - Subject files 1943-1949

Scope and Content

The agricultural rehabilitation planning work started under OFRRO, and the Division was established as a part of the UNRRA Bureau of Supply early in 1944.

The functions of the Division, outlined in A.O. No. 8, 15 April 1944, were to prepare requirements estimates; negotiate allocations of supplies; develop specifications and standards for supplies to be purchased; cooperate with other UNRRA divisions in achieving orderly, balanced programs, analyzing relevant reports and data, providing advice and information on agricultural commodities, and developing time schedules; and negotiate with national procurement agencies in arranging for purchase and deliveries.

At the peak of operations (about July 1946), the Division consisted of the Office of the Director and five major

Branches: Field Services, Agriculture (and Fisheries) Equipment, livestock, General Farm Supplies, and Program Analysis and Control, each broken into a number of sections and units. A Records and Shipping Section, at that time a part of the Office of the Director, seems later to have been incorporated with the Progress Control Section of the Program Analysis and Control Branch.

S-1209 Agricultural Rehabilitation Division - Office of the Director - Country Files 1942-1949

Scope and Content

The agricultural rehabilitation planning work started under OFRRO, and the Division was established as a part of the UNRRA Bureau of Supply early in 1944.

The functions of the Division, outlined in A.O. No. 8, 15 April 1944, were to prepare requirements estimates; negotiate allocations of supplies; develop specifications and standards for supplies to be purchased; cooperate

with other UNRRA divisions in achieving orderly, balanced programs, analyzing relevant reports and data, providing advice and information on agricultural commodities, and developing time schedules; and negotiate with national procurement agencies in arranging for purchase and deliveries.

At the peak of operations (about July 1946), the Division consisted of the Office of the Director and five major Branches: Field Services, Agriculture (and Fisheries) Equipment, livestock, General Farm Supplies, and Program Analysis and Control, each broken into a number of sections and units. A Records and Shipping Section, at that time a part of the Office of the Director, seems later to have been incorporated with the Progress Control Section of the Program Analysis and Control Branch.

S-1210 Agricultural Rehabilitation Division - Office of the Director - Reports 1942-1949

Scope and Content

The agricultural rehabilitation planning work started under OFRRO, and the Division was established as a part of the UNRRA Bureau of Supply early in 1944.

The functions of the Division, outlined in A.O. No. 8, 15 April 1944, were to prepare requirements estimates; negotiate allocations of supplies; develop specifications and standards for supplies to be purchased; cooperate with other UNRRA divisions in achieving orderly, balanced programs, analyzing relevant reports and data, providing advice and information on agricultural commodities, and developing time schedules; and negotiate with national procurement agencies in arranging for purchase and deliveries.

At the peak of operations (about July 1946), the Division consisted of the Office of the Director and five major Branches: Field Services, Agriculture (and Fisheries) Equipment, livestock, General Farm Supplies, and Program Analysis and Control, each broken into a number of sections and units. A Records and Shipping Section, at that time a part of the Office of the Director, seems later to have been incorporated with the Progress Control Section of the Program Analysis and Control Branch.

S-1211 Agricultural Rehabilitation Division - Program Analysis and Control Branch Executive Office - Subject Files 1943-1949

Scope and Content

The agricultural rehabilitation planning work started under OFRRO, and the Division was established as a part of the UNRRA Bureau of Supply early in 1944.

The functions of the Division, outlined in A.O. No. 8, 15 April 1944, were to prepare requirements estimates; negotiate allocations of supplies; develop specifications and standards for supplies to be purchased; cooperate with other UNRRA divisions in achieving orderly, balanced programs, analyzing relevant reports and data, providing advice and information on agricultural commodities, and developing time schedules; and negotiate with national procurement agencies in arranging for purchase and deliveries.

At the peak of operations (about July 1946), the Division consisted of the Office of the Director and five major Branches: Field Services, Agriculture (and Fisheries) Equipment, livestock, General Farm Supplies, and Program Analysis and Control, each broken into a number of sections and units. A Records and Shipping Section, at that time a part of the Office of the Director, seems later to have been incorporated with the Progress Control Section of the Program Analysis and Control Branch.

S-1213 Agricultural Rehabilitation Division - Program Analysis and Control Branch Executive Office - Country Files 1943-1949

Scope and Content

The agricultural rehabilitation planning work started under OFRRO, and the Division was established as a part of the UNRRA Bureau of Supply early in 1944.

The functions of the Division, outlined in A.O. No. 8, 15 April 1944, were to prepare requirements estimates; negotiate allocations of supplies; develop specifications and standards for supplies to be purchased; cooperate with other UNRRA divisions in achieving orderly, balanced programs, analyzing relevant reports and data, providing advice and information on agricultural commodities, and developing time schedules; and negotiate with national procurement agencies in arranging for purchase and deliveries.

At the peak of operations (about July 1946), the Division consisted of the Office of the Director and five major Branches: Field Services, Agriculture (and Fisheries) Equipment, livestock, General Farm Supplies, and Program Analysis and Control, each broken into a number of sections and units. A Records and Shipping Section, at that time a part of the Office of the Director, seems later to have been incorporated with the Progress Control Section of the Program Analysis and Control Branch.

S-1214 Agricultural Rehabilitation Division - Field Services Branch - Fellowships Program Analysis and Control Branch Executive Office - Country Files 1943-1949

Scope and Content

The agricultural rehabilitation planning work started under OFRRO, and the Division was established as a part of the UNRRA Bureau of Supply early in 1944.

The functions of the Division, outlined in A.O. No. 8, 15 April 1944, were to prepare requirements estimates; negotiate allocations of supplies; develop specifications and standards for supplies to be purchased; cooperate with other UNRRA divisions in achieving orderly, balanced programs, analyzing relevant reports and data, providing advice and information on agricultural commodities, and developing time schedules; and negotiate with national procurement agencies in arranging for purchase and deliveries.

At the peak of operations (about July 1946), the Division consisted of the Office of the Director and five major Branches: Field Services, Agriculture (and Fisheries) Equipment, livestock, General Farm Supplies, and Program Analysis and Control, each broken into a number of sections and units. A Records and Shipping Section, at that time a part of the Office of the Director, seems later to have been incorporated with the Progress Control Section of the Program Analysis and Control Branch.

S-1215 Industrial Rehabilitation Division - Office of the Chief - Subject Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1217 Industrial Rehabilitation Division - Industry and Material Branch - Subject Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1219 Industrial Rehabilitation Division - Office of the Chief - Fuel Branch - Subject and Country Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1222 Industrial Rehabilitation Division - Transport and Telecommunications Branch - Files of Branch Chief - Country Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1224 Industrial Rehabilitation Division - Program Control Branch - Files of Branch Chief - Country Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest

substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1225 Industrial Rehabilitation Division - Industrial Rehabilitation Services - Office of the Chief - Subject Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1226 Industrial Rehabilitation Division - Industrial Rehabilitation Services - Office of the Chief - Country Files 1943-1949

Scope and Content

As first conceived, the Division of Industrial Rehabilitation was a separate entity within UNRRA, responsible directly to the Director General. Not until 26 June 1944 was it established as a division within the Bureau of Supply, combining the responsibilities therefore assigned to the Division of Industrial Rehabilitation, the Division of Industrial Equipment of the Bureau of Supply, and the Division of Raw Materials of the Bureau of Supply. A structure for the division was devised consisting of a Requirements and Supply Section and a

Technical Section. Subsequently this organizational structure was changed and commodity sections established.

The supplies provided by UNRRA in the industrial rehabilitation program can be divided into four broad categories:

- (1) Highway, railway, and water transport equipment.
- (2) Coal and other fuel, and lubricants.
- (3) Materials for the restoration of public utilities, for provision of shelter, and for the repair of highways.
- (4) Materials and equipment necessary for the restoration of essential industries.

In brief, the duties and responsibilities of this division were as follows:

To collect and analyze all necessary information for the preparation of requests for allocations of supplies, including available information on the state of industry and condition of industrial plants.

To examine import programs submitted by both paying and non-paying governments and to suggest substitutes or changes in these programs.

To examine the capacities of countries and decide which are best suited to produce and supply materials and equipment for the relief and rehabilitation of liberated areas.

To develop specifications and standards and to prepare the necessary procurement orders for materials, equipment and supplies which are to be produced.

To make arrangements with national procurement authorities for the timely scheduling and delivery of the commodities to be procured.

To establish pools of equipment and material and to determine priorities.

To act as technical adviser and consultant to the Administration; to cooperate fully with the Standing Technical Committee on Industrial Rehabilitation and its Sub-committees.

S-1227 Food Division - Executive Offices (Office of the Director) - Subject Files 1943-1949

Scope and Content

On 10 Feb. 1944, the Food Division was added to the temporary interim organization of the Bureau of Supply. A group of commodity sections was set up within the Division to perform all supply functions with respect to the particular commodity or commodity groups assigned to the respective sections. A Service Section was also included in the organization to perform the routine duties of preparing requisitions, maintaining time-tables, preparing progress reports etc.

Functions of the Division included the following:

To work with the Requirements and Allocations control group in the development of over-all food requirements estimates for countries to be assisted by UNRRA to refine and reconcile commodity requirements estimates in the light of probable available supplies; and to prepare requirements data in suitable form for presentation to the Combined Food Board.

To develop specifications and standards for the food items involved, including decisions as to types and varieties of products, methods of packaging, labeling, etc.

To negotiate with suppliers and procurement agencies, both U.S. and foreign, in arranging for purchases.

To prepare work-sheets of purchase requisitions.

To maintain appropriate records of world supply.

To maintain a time-table and follow-up on the various commodity branches to make sure that data is available when required.

To maintain records of the status of allocation requests.

To prepare progress and program status reports.

S-1228 Food Division - Executive Offices (Office of the Director) - Country Files 1943-1949

Scope and Content

On 10 Feb. 1944, the Food Division was added to the temporary interim organization of the Bureau of Supply. A group of commodity sections was set up within the Division to perform all supply functions with respect to the particular commodity or commodity groups assigned to the respective sections. A Service Section was also included in the organization to perform the routine duties of preparing requisitions, maintaining time-tables, preparing progress reports etc.

Functions of the Division included the following:

To work with the Requirements and Allocations control group in the development of over-all food requirements estimates for countries to be assisted by UNRRA to refine and reconcile commodity requirements estimates in the light of probable available supplies; and to prepare requirements data in suitable form for presentation to

the Combined Food Board.

To develop specifications and standards for the food items involved, including decisions as to types and varieties of products, methods of packaging, labeling, etc.

To negotiate with suppliers and procurement agencies, both U.S. and foreign, in arranging for purchases.

To prepare work-sheets of purchase requisitions.

To maintain appropriate records of world supply.

To maintain a time-table and follow-up on the various commodity branches to make sure that data is available when required.

To maintain records of the status of allocation requests.

To prepare progress and program status reports.

Scope and Content

On 10 Feb. 1944, the Food Division was added to the temporary interim organization of the Bureau of Supply. A group of commodity sections was set up within the Division to perform all supply functions with respect to the particular commodity or commodity groups assigned to the respective sections. A Service Section was also included in the organization to perform the routine duties of preparing requisitions, maintaining time-tables, preparing progress reports etc.

Functions of the Division included the following:

To work with the Requirements and Allocations control group in the development of over-all food requirements estimates for countries to be assisted by UNRRA to refine and reconcile commodity requirements estimates in the light of probable available supplies; and to prepare requirements data in suitable form for presentation to the Combined Food Board.

To develop specifications and standards for the food items involved, including decisions as to types and varieties of products, methods of packaging, labeling, etc.

To negotiate with suppliers and procurement agencies, both U.S. and foreign, in arranging for purchases.

To prepare work-sheets of purchase requisitions.

To maintain appropriate records of world supply.

To maintain a time-table and follow-up on the various commodity branches to make sure that data is available when required.

To maintain records of the status of allocation requests.

To prepare progress and program status reports.

S-1231 Food Division - Grains and Fats Branch - Country Files 1943-1949

Scope and Content

On 10 Feb. 1944, the Food Division was added to the temporary interim organization of the Bureau of Supply. A group of commodity sections was set up within the Division to perform all supply functions with respect to the particular commodity or commodity groups assigned to the respective sections. A Service Section was also included in the organization to perform the routine duties of preparing requisitions, maintaining time-tables, preparing progress reports etc.

Functions of the Division included the following:

To work with the Requirements and Allocations control group in the development of over-all food requirements estimates for countries to be assisted by UNRRA to refine and reconcile commodity requirements estimates in the light of probable available supplies; and to prepare requirements data in suitable form for presentation to the Combined Food Board.

To develop specifications and standards for the food items involved, including decisions as to types and varieties of products, methods of packaging, labeling, etc.

To negotiate with suppliers and procurement agencies, both U.S. and foreign, in arranging for purchases.

To prepare work-sheets of purchase requisitions.

To maintain appropriate records of world supply.

To maintain a time-table and follow-up on the various commodity branches to make sure that data is available when required.

To maintain records of the status of allocation requests.

To prepare progress and program status reports.

S-1232 Food Division - Animal Proteins and Food Branch - Country Files 1943-1949

Scope and Content

On 10 Feb. 1944, the Food Division was added to the temporary interim organization of the Bureau of Supply. A group of commodity sections was set up within the Division to perform all supply functions with respect to the particular commodity or commodity groups assigned to the respective sections. A Service Section was also included in the organization to perform the routine duties of preparing requisitions, maintaining time-tables, preparing progress reports etc.

Functions of the Division included the following:

To work with the Requirements and Allocations control group in the development of over-all food requirements estimates for countries to be assisted by UNRRA to refine and reconcile commodity requirements estimates in the light of probable available supplies; and to prepare requirements data in suitable form for presentation to the Combined Food Board.

To develop specifications and standards for the food items involved, including decisions as to types and varieties of products, methods of packaging, labeling, etc.

To negotiate with suppliers and procurement agencies, both U.S. and foreign, in arranging for purchases.

To prepare work-sheets of purchase requisitions.

To maintain appropriate records of world supply.

To maintain a time-table and follow-up on the various commodity branches to make sure that data is available when required.

To maintain records of the status of allocation requests.
 To prepare progress and program status reports.

S-1233 Food Division - Beverages Sugar and Vegetables Branch - Country Files 1943-1949

Scope and Content

On 10 Feb. 1944, the Food Division was added to the temporary interim organization of the Bureau of Supply. A group of commodity sections was set up within the Division to perform all supply functions with respect to the particular commodity or commodity groups assigned to the respective sections. A Service Section was also included in the organization to perform the routine duties of preparing requisitions, maintaining time-tables, preparing progress reports etc.

Functions of the Division included the following:

To work with the Requirements and Allocations control group in the development of over-all food requirements estimates for countries to be assisted by UNRRA to refine and reconcile commodity requirements estimates in the light of probable available supplies; and to prepare requirements data in suitable form for presentation to the Combined Food Board.

To develop specifications and standards for the food items involved, including decisions as to types and varieties of products, methods of packaging, labeling, etc.

To negotiate with suppliers and procurement agencies, both U.S. and foreign, in arranging for purchases.

To prepare work-sheets of purchase requisitions.

To maintain appropriate records of world supply.

To maintain a time-table and follow-up on the various commodity branches to make sure that data is available when required.

To maintain records of the status of allocation requests.

To prepare progress and program status reports.

S-1234 Clothing, Textiles and Footwear Division - Office of the Director - Country Files 1943-1949

Scope and Content

The Clothing, Textiles, and Footwear Division of the Bureau of Supply was organized January 1944, its basic structure consisting of Commodity Sections.

The basic duties of the Division included the following:

To work with the Requirement and Allocations Committee in the development of overall clothing requirements and to translate these basic standard programs into specific items and commodities.

To refine and reconcile the estimates in the light of probable available world supplies.

To prepare requirements data in suitable form for presentation to the appropriate approving agency.

To develop specifications and standards for the various items.

To negotiate with suppliers and procurement agencies in arranging for purchases.

To prepare requisitions in final form and maintain timetables and inventories.

To maintain appropriate records of world supply and information as to status of allocation requests, requisitions, procurement, and deliveries; to prepare progress and programs status reports.

S-1235 Ocean Shipping Division - Executive Office - Subject Files 1943-1949

Scope and Content

The central unit in UNRRA for the compilation of shipping programs was the Ocean Shipping Division, established on 26 June 1944. The responsibility for all cargoes originating in the Eastern Hemisphere was vested in the European Regional Office; cargoes originating in the Western Hemisphere were the responsibility of the Headquarters Office in Washington.

In the spring of 1945 the Ocean Shipping Division underwent a general revision. There was established the post of Deputy Director, who acted as head of the Division in the absence of the Director, and who conducted UNRRA's chartering operation; an Administrative Office was set up; the Program Officers were transferred to corresponding work in the commodity divisions: The Traffic Section was given branch status and reorganized into a Ship and Cargo Section and a Country Control Section. The Ship and Cargo Section consisted of Traffic Officers responsible for ship allocations and bookings, for livestock shipments, for cargoes originating with the War Food Administration, cargoes originating in Latin America, and for coal shipments. The Country Control Section consisted of seven units as Traffic Desks, set up by country of destination - one for Yugoslavia and Austria, the second for Greece, Dodecanese, Middle East Camps, and Ethiopia, the third for Poland, the fourth for Czechoslovakia and German DP Operations, the fifth for Italy and Albania, the sixth for the Soviet Republics and air shipments to all destinations, and the seventh for China, the Philippines and Korea. The main duties and responsibilities of the Ocean Shipping Division were to:

Plan, direct, and coordinate all of UNRRA's shipping operations.

Maintain relations with governments and commercial shipping officials to keep informed of and develop procedures with respect to obtaining shipping space etc

Propose and effectuate policies regarding transfer of title, labeling, packaging, and shipping of UNRRA supplies and relevant procedure to be followed by procurement agencies, private vendors, forwarders, and shipping representatives.

Negotiate and conclude contracts for operating services in warehouses and for chartering of vessels; arrange for movement of supplies from warehouses to vessels.

Develop, place in operation, and supervise certain special programs, such as movement of waterways craft and fishing crafts to China.

Determine required shipping space and obtain from governments or commercial shipping agencies the vessel space required; develop weekly or monthly vessel programs.

Prepare and issue forwarding orders or shipping requests to the procurement agencies, vendors, forwarding agencies, warehouses or other sources of supply.

Maintain registers of the availability, movement, loading, and shipment of supplies in each loading area.

Maintain liaison with each commodity division.

Program, supervise, and arrange for all shipments by air.

Establish and maintain running inventories which reflect at all times amounts, kinds, balances, and dollar value of commodities in UNRRA warehouses or in transit.

S-1236 Ocean Shipping Division - Executive Office - Country Files 1943-1949

Scope and Content

The central unit in UNRRA for the compilation of shipping programs was the Ocean Shipping Division, established on 26 June 1944. The responsibility for all cargoes originating in the Eastern Hemisphere was vested in the European Regional Office; cargoes originating in the Western Hemisphere were the responsibility of the Headquarters Office in Washington.

In the spring of 1945 the Ocean Shipping Division underwent a general revision. There was established the post of Deputy Director, who acted as head of the Division in the absence of the Director, and who conducted UNRRA's chartering operation; an Administrative Office was set up; the Program Officers were transferred to corresponding work in the commodity divisions: The Traffic Section was given branch status and reorganized into a Ship and Cargo Section and a Country Control Section. The Ship and Cargo Section consisted of Traffic Officers responsible for ship allocations and bookings, for livestock shipments, for cargoes originating with the War Food Administration, cargoes originating in Latin America, and for coal shipments. The Country Control Section consisted of seven units as Traffic Desks, set up by country of destination - one for Yugoslavia and Austria, the second for Greece, Dodecanese, Middle East Camps, and Ethiopia, the third for Poland, the fourth for Czechoslovakia and German DP Operations, the fifth for Italy and Albania, the sixth for the Soviet Republics and air shipments to all destinations, and the seventh for China, the Philippines and Korea. The main duties and responsibilities of the Ocean Shipping Division were to:

Plan, direct, and coordinate all of UNRRA's shipping operations.

Maintain relations with governments and commercial shipping officials to keep informed of and develop procedures with respect to obtaining shipping space etc

Propose and effectuate policies regarding transfer of title, labeling, packaging, and shipping of UNRRA supplies and relevant procedure to be followed by procurement agencies, private vendors, forwarders, and shipping representatives.

Negotiate and conclude contracts for operating services in warehouses and for chartering of vessels; arrange for movement of supplies from warehouses to vessels.

Develop, place in operation, and supervise certain special programs, such as movement of waterways craft and fishing crafts to China.

Determine required shipping space and obtain from governments or commercial shipping agencies the vessel space required; develop weekly or monthly vessel programs.

Prepare and issue forwarding orders or snipping requests to the procurement agencies, vendors, forwarding agencies, warehouses or other sources of supply.

Maintain registers of the availability, movement, loading, and shipment of supplies in each loading area.

Maintain liaison with each commodity division.

Program, supervise, and arrange for all shipments by air.

Establish and maintain running inventories which reflect at all times amounts, kinds, balances, and dollar value of commodities in UNRRA warehouses or in transit.

S-1238 Direct Procurement Division - Subject Files 1943-1949

Scope and Content

The Direct Procurement Division first came into being as a Section of the Procurement Coordination Division in the spring of 1944. On 9 May 1946 the Direct Procurement Branch was given full divisional status. On 1 Oct. 1946 the purchasing functions of the Purchase Section, Purchase and Supply Branch, Administrative Services Division were transferred to the Direct Procurement Division, which consequently became the sole procurement agency of the Administration Printing and duplicating work and the planning and authorization of requirements remained.

The primary and basic functions of the Division were:

To purchase small quantities of urgently required commodities with non-convertible funds which it would have been uneconomical to channel through the normal machinery of United States Government purchase, i.e. Treasury Procurement, US Department of Agriculture etc.

To negotiate procurement, using Free Funds, in markets which were outside the sphere of normal US Government activities, e. g. War Surplus Stores etc.

To procure administrative supplies, PX, Commissary and Camp Supplies for UNRRA field missions.

To procure supplies with funds contributed by Voluntary Agencies.

S-1240 Direct Procurement Division - Medical and Sanitation Supplies Branch - Executive Offices - Country Files 1943-1949

Scope and Content

The Direct Procurement Division first came into being as a Section of the Procurement Coordination Division in the spring of 1944. On 9 May 1946 the Direct Procurement Branch was given full divisional status. On 1 Oct. 1946 the purchasing functions of the Purchase Section, Purchase and Supply Branch, Administrative Services Division were transferred to the Direct Procurement Division, which consequently became the sole procurement agency of the Administration Printing and duplicating work and the planning and authorization of requirements remained.

The primary and basic functions of the Division were:

To purchase small quantities of urgently required commodities with non-convertible funds which it would have been uneconomical to channel through the normal machinery of United States Government purchase, i.e. Treasury Procurement, US Department of Agriculture etc.

To negotiate procurement, using Free Funds, in markets which were outside the sphere of normal US Government activities, e. g. War Surplus Stores etc.

To procure administrative supplies, PX, Commissary and Camp Supplies for UNRRA field missions.

To procure supplies with funds contributed by Voluntary Agencies.

AG-018-004 Bureau of Areas 1943-1949

Scope and Content

Sub-fonds consists of the following series:

Executive Office (S-1241 to S-1243)

Office of Country Mission Affairs (S-1244 and S-1245)

European Mission Affairs (S-1246 and S-1247)

Administrative History

The Bureau of Areas was set up in January 1944 as the Headquarters unit in direct control of field missions, and was organized to include the following eight Divisions: The Area Coordination and Liaison Division, the Camps Division, the Staff Services Division, the Distribution Division, the Western and Northern European Division, the Southern European Division, the Central and Eastern European Division, and the Far Eastern Division.

On 3 May 1945 the Director General issued a directive which abolished the Bureau of Areas and established in its place the Bureau of Services. The main effect of this directive was to decentralize control of the European Missions from Headquarters to the London Office, with an increase in the authority of the Chiefs of the Missions over their subordinate personnel, and to provide a means for coordinating the work of the functional Divisions of Health, Welfare and Displaced Persons. In the course of the reorganization, the Staff Services Division was transferred to the Bureau of Finance and Administration, the Camps Division was transferred to the Displaced Persons Division, and the Distribution division was transferred to the Bureau of Supply. To replace the Areas country desks, the Requirements and Allocations Coordination Branch of the Bureau of Supply was reconstituted, as a Country Programs Division. Duties of an advisory and informational character relating to European country missions, which had not been delegated to ERO, were entrusted to a separate Office of Country Mission Affairs (OCMA) reporting to the Senior Deputy Director General. The Office of Country Mission Affairs was formally abolished on 1 June 1946, and in its place was established the Office of European Mission Affairs, reporting to the office of the Chief Executive.

Duties and responsibilities of the Bureau of Areas included:

In general, to supervise field operations on behalf of the Director General directly or through delegation to Regional Offices, including formation of field missions and development of field budgets.

To furnish intelligence liaison service between the Administration and outside agencies, and to effect program coordination on matters outside the scope of a single area division.

To be responsible for overseas clearance of field personnel, receipt and dispatch of communications from field missions, and review of field personnel; to review administrative procedures affecting field missions.

To review camp management operations and provide technical advice on the management of camps; to determine the supply requirements and policies affecting camps.

To develop through consultation with governments a distribution policy, and to develop plans and provide technical advice on distribution facilities and methods.

AG-018-005 Bureau of Administration 1942-1949

Scope and Content

Sub-fonds consists of the following series:

Executive Office (S-0518 and S-1276)

Personnel and Management Division (S-1277 and S-1278)

Personnel Division (S-1279 to S-1287)

Administrative Service Division (S-1288 to S-1305)

Administrative History

The Bureau of Administration was responsible for various functions relating to administrative services, management, planning, and coordination. It existed as a Bureau from 15 April 1946 to its abolition on 22 December 1947. Prior to its establishment, its component services had been parts of the Bureau of Finance and Administration (abolished April 1946), and after the abolition of the Bureau of Administration (December 1947) its responsibilities were carried on by its two major divisions - Personnel and Management, and Administrative Services which were made directly responsible to the Chief Executive Officer. The top officials in charge of administration were therefore:
Deputy Director-General, Finance and Administration

Chief, Bureau of Administration, Chief Executive Officer
 Administrator for Liquidation

When the Bureau of Administration was established in April 1946, it consisted of the Office of the Chief (including the functions of the former Division of Management and Budget), and four divisions, Personnel, Administrative Services, Procedural Coordination, and Administrative Planning. The latter two became staff units in the Office of the Chief at the end of 1946, and on 16 October 1947 they were added to the Division of Personnel, whose title was then changed to Division of Personnel and Management. The Division of Administrative Services was broken up and reconstituted at least once, but its component services, though grouped and titled in various ways, maintained an operating continuity until the time of UNRRA's liquidation. These services were responsible for communications (mail, cable, messenger), records (central files), travel, purchase and supply, space and maintenance, reproduction and distribution, surplus disposal, and overseas administrative requirements.

The records described below contain (a) data on UNRRA's organizational and procedural history and (b) include the Headquarters central files (Registry files) dealing with every aspect of UNRRA's work.

S-0518 Executive Office - Subject Files 1943-1949

Scope and Content

Series contains PAG-4/4.1 (UNRRA HQ, Washington, D.C.).

Due to the EAD project, some of the boxes have been assigned to new series. (RD 18/08/19)
